Annual Strategic Advisory (Retainer)

The Founder's Inner Circle — 12-Month Decision Intelligence Partnership

Investment: ₹99,999 – ₹1,50,000 annually | Duration: 12 Months | Ongoing Advisory + Scheduled Touchpoints

CORE POSITIONING

For founders who have moved beyond one-time clarity into sustained strategic intelligence — this is the ongoing decision partnership that keeps your numerological cycles, burnout risks, and growth windows actively monitored so you're never making critical decisions in the dark.

WHAT THIS RETAINER SOLVES

- No one monitoring your decision capacity in real time — so burnout blindsides you
- Critical decisions made without cycle awareness — wrong timing produces wrong outcomes
- Growth pushes launched during contraction cycles — why good plans still fail
- No strategic partner who understands both your spiritual architecture and your business logic
- Isolation at the founder level — no one to pressure-test high-stakes decisions

Most advisory retainers are reactive — you call when there's a problem. By then, you're already in the wrong decision window, already in burnout, already past the optimal timing. This retainer is predictive. Built on your numerological cycle intelligence, it tells you what's coming before it arrives.
